NOV 19 1947

MEMORANDUM TO: Assistant Director, Office of Operations  
SUGJECT: Evaluation of  Reports by Scientific Branch, ORE  
REFERENCE: Memorandum for the Assistant Director, ORE, from the Deputy Assistant Director, ORE, Subject as Above, dated 6 November 1947

25X1A

1. The political and economic reports listed in the reference were routed to the Scientific Branch of this Office through an error of distribution, as was noted in the "General Remarks" on the Consolidated Grading Sheet for ORE reports evaluated by the Scientific Branch of this Office during October 1947. This sheet was included among the enclosures to my memorandum to you dated 6 November 1947, subject: ORE Evaluations of ORE Reports During October 1947. As also noted thereon this distributional error has been rectified.
2. It has been the expressed policy of this Office for each ORE report to be evaluated only by the Branch or Group of primary cognizance. This evaluation includes consideration of any secondary interest and is therefore an overall ORE evaluation.
3. Evaluations of about half of the reports listed in the reference have already been submitted to ORE by the Branches or Groups of primary cognizance. Evaluations of the remainder are currently in preparation by the Branch or Group having primary cognizance.
4. For your information, steps have been taken to insure that the Branch or Group having primary interest in an ORE report will submit the evaluation. This evaluation will be the ORE evaluation for that report.
